Radiator support 2018–2024?

OUR classification, not the vendor's: we read this as structure rather than a body panel, so it follows the 2018-2024 frame/body rule instead of the 2022 front-end refresh. The 2018-2024 rule itself is vendor-confirmed; sorting this part into it is our call. Worth one question to the yard before buying an early donor.
